Drying & Styling

@Jovi.salon.vb

All Cutieheads Extensions can be air-dried, but blowdrying will help extend time between needed washing.

Always blowdry on medium heat and use a leave-in heat protectant.

Use a dry styling heat protectant every time you touch a hot iron to your hair and stay below 350 degrees.

Apply a light oil 1-2x daily on mids to ends of extensions.

Our Recommended Products:

K18 Molecular Repair Oil (both a dry styling heat protectant and daily oil)

Leaf & Flower CBD Oil

Amika Shield Anti-humidity Spray

Sleeping & Evening Care

@Jovi.salon.vb

Never go to sleep with wet extensions.

On dry hair, brush thoroughly and apply oil every night before sleep.

Braid extensions to keep them from tangling.

Use a silk pillowcase and/or silk bonnet.

Our Recommended Products:
K18 Molecular Repair Oil
Leaf & Flower CBD Oil
Kitsch silk pillowcases + bonnets

Swimming & Outdoors

@Jovi.salon.vb

Keep swimming to a minimum.

If you choose to swim, wet hair, apply a generous amount of leave-in conditioner, and braid hair before entering water.

STAY AWAY from sunscreens that contain Avobenzone and Octocrylene!
These common sunscreen ingredients will discolor your extensions orange and is irreversible.

After any contact with unfiltered water or extensive time outdoors, wash hair as soon as possible with a detox shampoo and apply a hydrating mask as soon as possible.
